

Site Safety Courses

Since 2010 the UK Contractor Group (UKCG) requires all site supervisors to have attended a 2 day Site Safety Plus course or equivalent (IOSH, NEBOSH, SSSTS, and SMSTS). Click here for a copy of [UKCG's Supervisor Training Standard](#).

These courses are available from CSkills or local training centres approved to deliver on behalf of CSkills. Prices vary and it's advisable to shop around.
