

TECHNICAL SEMINAR

26 April 2022 | Perth

Event organised by the RSTA
in association with SCOTS

DECARBONISATION OF ROAD SURFACING

**FREE
TO ATTEND**

The RSTA is the industry focus for the quality delivery of long-lasting, cost-effective and sustainable road maintenance solutions.

ABOUT THIS EVENT

In response to the challenge to reduce the carbon impact of road surfacing, the RSTA in association with SCOTS are providing a free, full day seminar covering a range of road surface treatment options, where and when to use them and how we can individually and collectively reduce carbon.

The seminar, aimed at roads delegates including inspectors, technicians, engineers and managers will be independently chaired by Angus Bodie. Feedback from this event will be taken to the SCOTS conference in May for further discussion.
